

INNOVATIONS, ADVANCES AND IMPLEMENTATION OF FLOOD FORECASTING TECHNOLOGIES

DHI as co-ordinator of the EU 5th framework **FLOOD RELIEF** (<http://projects.dhi.dk/floodrelief/>), would like to invite contributions to the International Conference. "**INNOVATIONS, ADVANCES AND IMPLEMENTATION OF FLOOD FORECASTING TECHNOLOGIES**"

Delegates are encouraged to share their problems and solutions with a wider international community

The conference topics cover:

- Quantitative Precipitation Forecasting
- Flood Forecasting Models
- Flood Warning and Emergency Management
- Data assimilation in hydro-meteorological models
- Uncertainty in flood forecastings
- Remote sensing methods
- Integrated modelling and decision support systems
- Relevant case studies

The conference will be held 17-19 October, 2005 in Tromsø, Norway. The venue will at the Rica Hotel in the heart of Tromsø, Norway. Tromsø, known affectionately as the Paris of the north, is located on an island in Norway, surrounded by spectacular mountains and fjords.

Please note that the **deadline for abstracts is 15 April, 2005.**
